

Portable Ramp Specification Checklist

1. What type of step/threshold do you need to overcome?

2. What is the outside/main step(s) **total height** or level difference?

_____ (mm)

3. If there is an inside/secondary step or threshold, what is the step **total height** or level difference?

_____ (mm)

4. If there is a doorway, what is the **frame-to-frame** width of the doorway opening?

_____ (mm)

5. If there is a doorway, what is the **clear open width** of the doorway opening (allowing for the thickness of the door when open)?

_____ (mm)

6. If there is a doorway, does the door open inwards or outwards? ☐ Inwards ☐ Outwards

7. What length of clear space is available before the steps/threshold outside or at the bottom of the ramp? _____ (mm)

8. Are you ideally looking for a leave-in-place/installed solution or portable? ☐ Leave-in-place/installed ☐ Portable

9. What is the ground like where the ramp lands? (tick all that apply)

☐ Soft/grass/gravel

☐ Sloping downhill

☐ Hard-standing, e.g. concrete/tarmac/paving

☐ Cross-slope/gradient

☐ Sloping uphill

10. What mobility device(s) will be used either now or in the future? (tick all that apply)

☐ None-walking up/walking stick

☐ Manual wheelchair

☐ Powered wheelchair with assistant

☐ Walking frame/rollator

☐ Mobility scooter

☐ Powered wheelchair (no assistant)

11. Please take some photographs of the steps/threshold, and include the area in front of and beyond the planned ramp location ie. both close-up photos and stand-back photos.
